Eric Falke of eSolutions discusses the many free tools available to MIIA members through the MIIA CyberNet platform which include:

Phishing Simulations – Understanding the importance of safeguarding your organization against phishing attacks is crucial. Phishing simulations help train your users to identify dangerous emails.

Online Training – Educate your users on key cybersecurity and privacy issues with online training courses.

Unlimited Advice – EPlace experts are here to assist you with your needs, regardless of the complexity.

Also discussed will be some best practices for enhancing your municipal cyber security and an overview of some recent cyber threats and how your municipality can protect itself.
