

Lockout/ Tagout Training

Tuesday, May 21, 2019
Mashpee Library, 64 Steeple Street,
8:00 a.m.- 2:30 p.m.
(Registration/Continental Breakfast 7:45 a.m.)
Light Lunch included

Failure to control hazardous energy accounts for nearly 10 percent of the serious accidents in many industries. Proper lockout/tagout (LOTO) practices and procedures safeguard workers from hazardous energy releases. The control of hazardous energy is addressed in a number of OSHA standards, including General Industry - Electrical (1910 Subpart S), Special Industries (1910 Subpart R), and Electric Power Generation, Transmission, and Distribution (1910.269), Construction - Electrical (1926 Subpart K), Electric Power Transmission and Distribution (1926 Subpart V), and Concrete and Masonry Construction (1926 Subpart Q), Marine Terminals (1917 Subpart C), and Longshoring (1918 Subpart G)

The main focus of this course will be 29 CFR 1910.147 OSHA's Control of Hazardous Energy found in the General Duty regulations.

This course is recommended for:

- Public works (Required)
- School Departments (Required)
- Fire Departments (Required for fire station),
- Police (Required for station facility maintenance staff)

PRESENTER-Bridget McGuinness is the MIIA Risk Management Trainer. She has a Bachelor of Science degree in Civil Engineering and has over 30 years of experience training workers, managers and consultants in both private industry and municipalities.

Participation in this program qualifies the MIIA member for 1% credit in the FY19 MIIA Rewards Program under the Workers' Compensation category
